## PROFILE SUMMARY

Web Developer with 3 years of experience building responsive, high-performance web apps using modern technologies like React, Next.js, Node.js, and TypeScript. Skilled in agile development, UI/UX, and performance optimization. Passionate about creating scalable, user-focused, and innovative digital solutions — Ready to React to my Next.js adventure — no Node of doubt, I'm TypeScripted for success! :)

## WORK EXPERIENCE

**Simplify Technology**

APR 2025 - PRESENT

Web Developer

- Designed and developed high-performance corporate portals using Liferay and React, ensuring scalability and maintainability.
- Implemented responsive, user-focused interfaces, increasing user engagement by 25%.
- Led internal workshops on UI/UX best practices, enhancing team collaboration and design consistency.
- Collaborated with senior developers to build scalable front-end architectures and improve code quality.

**Eldorado Research Institute**

Nov 2022 - Jul 2023

Web Developer Intern

- Supported the enhancement of enterprise websites within an Agile Scrum environment.
- Contributed to the development and launch of new pages, improving site performance and user experience.
- Participated in daily stand-ups and sprint reviews to maintain delivery alignment and team efficiency.

**Federal Court of Accounts (TCU)**

Sep 2020 - Mar 2021

Tests Intern

- Developed and maintained automated testing frameworks to streamline quality assurance processes and reduce testing time.
- Supported continuous improvement of build and deployment pipelines, enhancing delivery speed and reliability.
